

PALETTI

PROFILE SERIES R1

Construction profiles with an almost gap-free profile connection.

Our R1 profile series is particularly suitable for applications in the industrial sectors of conveyor technology, especially for packaged goods in the food industry, the pharmaceutical industry, and the chemical industry in the areas of machine frames, fixtures, and operating equipment.

Additionally, due to its nearly gap-free connections, it excellently meets the increased requirements for cleanroom constructions made from aluminum profiles.

THE FOLLOWING FEATURES SPEAK FOR THE PROFILE SERIES R1:

- ✓ Smooth and clean profile connections
- ✓ Profile geometries with closed grooves on different sides
- ✓ Elegant design
- ✓ A self-contained modular system that can be individually configured

PROFILE SERIES R1

Construction profiles with an almost gap-free profile connection.
